

**Want a
bigger share
of automotive
aluminum?**

Autolum can help you get your **body-in-white Class A aluminum** into more bodies.

Nobody does aluminum toll processing better.

With a proven history of flawless body-in-white performance, Autolum is your superior source for Class A aluminum toll slitting and inspection. We offer 84" OD coil capacity, precise slit width control, and 100% top and bottom inspection – all with JIT rail or truck delivery direct from our massive Detroit warehouse. We will never disappoint you or your customer with a late shipment or unexpected defect.

Let us help you improve your efficiency and reliability as a supplier to the automotive industry.

Because at Autolum...flawless is standard.
