

**We can help  
you open  
doors to more  
automotive  
aluminum  
business.**

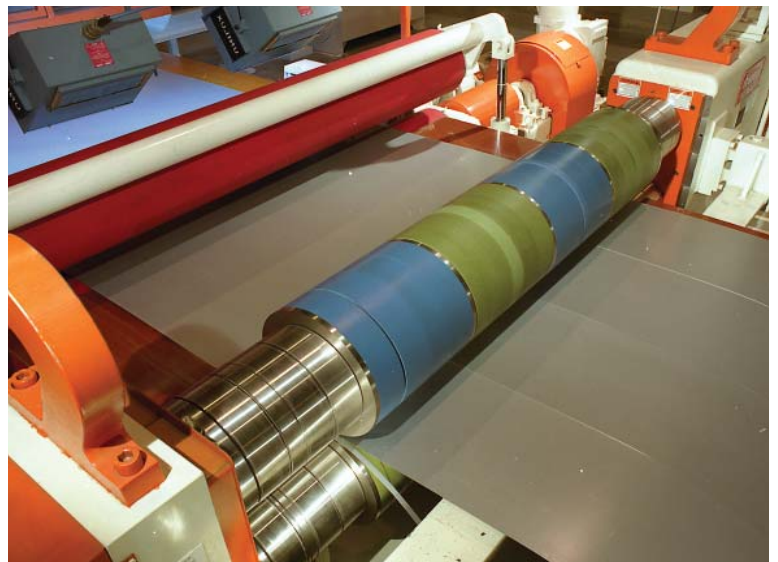

# Flawless aluminum body-in-white panels begin with flawless slitting and inspection.

**Nobody** does  
aluminum toll  
processing  
better.

To gain more automotive share, your aluminum sheet has to be flawless. "Flawless" is exactly what Autolum has delivered for years. We are Detroit's most reliable Class A toll slitting and inspection source. We offer 84" OD coil capacity and precise slit width control with 100% top and bottom inspection. And JIT rail or truck delivery direct from our 500,000 sq. ft. Detroit warehouse. We'll never disappoint you with a late shipment or unexpected defect.

Autolum can help you be a better supplier so you can open more doors to more automotive aluminum business.

**Because at Autolum...flawless is standard.**
