

**Roll Big.  
Run Long.**  
Increase your  
productivity  
with 84" OD,  
Class A slit  
aluminum coils.

# Autolum can slit and inspect 84" OD x 78" wide coils. So roll big, run long.

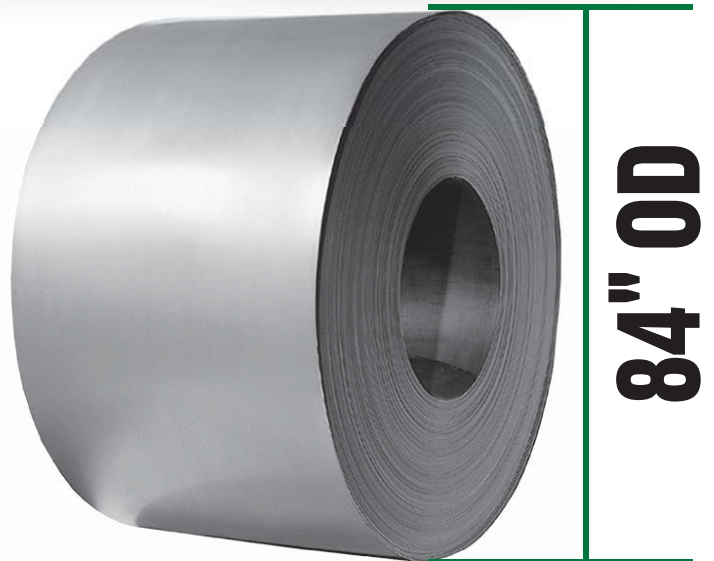

**Nobody** does  
aluminum toll  
processing  
better.

Increasing body-in-white line productivity is simple: roll bigger Class A aluminum coils and send them to Autolum. We can process the biggest coils in the industry—up to 84" OD x 78" wide. You and your customers will love the increased throughput.

Autolum has a history of flawless Class A toll slitting and inspection. With two slitting lines, 100% top and bottom inspection, a 500,000 sq. ft. warehouse, and JIT truck or rail delivery, Autolum not only ensures that you receive flawless material, we also help maximize productivity for you and your customers.

We'll help you be a better, more competitive, more profitable supplier.

**Because at Autolum...flawless is standard.**
